AMINO VITAMIN

a novel solution for better growth and healthier animals

AMINO VITAMIN aids in the maintenance of good health and performance, improves health and growth as well as prevents intestinal problems of animals during first days of life.

Supports treatment of infectious diseases.

It is an ideally-balanced liquid formulation consisting of complete list of vitamins and amino acids specially designed to be supplied during periods of decreased performance of layers (moulting period), breeders and start-up period in broilers. It also prevents problems rising from cannibalism, feather-pecking and dehydration.

Covers vitamin and amino acids requirements, particularly during the stress periods and during and after antibiotic treatment
